

LAND CONGRESS ATTRACTS CROWDS

MISSOURI'S LAND AND INDUSTRIAL SHOW MEETS WITH GREAT SUCCESS.

PROMINENT PEOPLE TAKE PART

Thousands of Sightseers Attend Meetings—Woman Take an Important Part in Program—Many Speakers.

Springfield, Mo.—The opening of the Missouri Land and Industrial Congress last Wednesday under the direction of the state board of immigration, Springfield claimed the credit of entertaining one of the largest and most representative throngs of Missouri boosters ever assembled in the state.

Boomers were here from every part of the state, and the comprise about the most active and enthusiastic crowd that ever congregated in a Missouri town with one object in view—that of proclaiming to the world the advantages offered to the capitalist, the homeseeker and the wage earner by grand old Missouri.

Wednesday's Session.

The first session of the congress was held at the Landers theater at 10 o'clock. Mayor Louis P. Ernst made an address of welcome and John H. Curran of St. Louis, chief commissioner, responded. This was followed by an address by Gov. Hadley.

Gov. Hadley, in his address at the opening of the congress, said in part: "I feel that not only do the people of Missouri, but also the people of other states, know too little of what we have accomplished and of the vast undeveloped resources that Missouri has to offer. The total area of the state of Missouri is 44,000,000 acres, of which only 23,500,000 acres are improved and in cultivation. Thus nearly one-half of the soil of Missouri has never been touched by a plowshare. Seventeen million acres of forest await the stroke of the woodman's axe. And yet Missouri, which was the first state lying wholly west of the Mississippi to be admitted to the Union, is nearly 100 years old and has within its domain cities that have passed the first century of their existence. I believe that this fact has also tended to create the impression that all of our resources are developed; that all our soil has been cultivated; and that all of our wealth has been exploited. And thus it is that those who live in states to the east, to the north and to the south, who have been looking for new homes in the west and the southwest, have supposed that in Missouri the door of opportunity was closed and have passed on to other states and other territories."

"The value of the dairy products of the state in 1908 was less than \$10,000,000, while the value of these products in each of our sister states to the north and to the west exceed \$50,000,000 each year. And yet there is no better dairy section in our entire country; according to the testimony of experts, than that which is found in the plateau of the Ozarks."

"Equally great are the possibilities of the development of our agricultural wealth by the use of the unused soil. There is in the state of Missouri today over 3,000,000 acres of swamped or flooded lands, the cultivation of which is prevented or impaired by reason of swamps and overflows. If this land was reclaimed so as to yield a certain crop each year, that which it would produce would be sufficient to support the entire population of the state."

More Science Needed.

"That our soil has not been scientifically cultivated is a truth that is clearly apparent. The average production of wheat in this country is only 14 bushels per acre, and yet in Belgium, France and England the yield is nearly 30 bushels per acre. And yet, the soil upon which the wheat is grown in America is the equal of the soil of any of these foreign countries."

"In the midst, therefore, of this investigation by the American people as to the cause of present conditions, Missouri opens her doors and bids them welcome. She can offer more room for homeseekers and more opportunities for investors than any state in the Union."

Wednesday's program of the land congress included three interesting sessions, in which some of the most prominent men in the state participated. H. A. Ruebner of Rolla, state geologist, delivered an address at the forenoon session, following the speech of Gov. Hadley, on "Missouri Mining Resources," and Prof. Burdard Copeland of Rolla delivered an address on "Missouri Mining Experiment Stations." Prof. E. R. Buckley of Joplin, president of the American Mining Congress, closed the morning session with an interesting discourse on "Missouri's Future Mining Possibilities."

At the afternoon session addresses were made by a number of visitors. Prof. M. Jordan of Columbia talked on "Missouri as a Corn State," Geo. W. Williams of Hannibal talked on "Alfalfa in the Ozarks," J. O. Swift of the Kansas City Commercial Club talked on "Kansas City, Mo., U. S. A.," and H. G. Krake of St. Joseph discussed "St. Joseph and Development."

At Wednesday evening's session Walter S. Dickey of Kansas City delivered an address on "Waterways of Missouri," illustrated with kinetoscope pictures. "Looking Backward" was the subject handled by Norman J. Coleman of St. Louis; "Ozark Development" by Col. Jay L. Torrey of Roosevelt's Rough Riders, who now resides at Bransville, in Howell county, proved a most interesting address.

Thursday's Session.

At Thursday morning's session addresses were made by many prominent men. The program included the following: "Natural Advantages for Live Stock Raising in Missouri," Dean P. B. Mumford, Columbia; "Pure-Bred Cattle," Sanford Smith, Reeds; "The White Face on Missouri," W. A. Dallmeyer, Jefferson City; "The Reclamation of Swamp Lands," J. H. Nolen, Jefferson City; poem, "The Cottage in the Ozarks," W. J. Cox, Bolivar; "Northwest Missouri to the Front," Sidney J. Roy, Hannibal.

At Thursday afternoon's session there was a much larger attendance than at the forenoon gathering. The following program was given: "Possibilities for Dairying in the Ozarks," Dr. William P. Cutler, dairy commissioner, Columbia; "What May Be Done with a Dairy Cow," Prof. C. H. Eckles, Columbia; "Successful Dairymen," P. P. Lewis, Eureka; "Dairy Papers," Speed Mosby, Jefferson City; "Profits in Dairying," A. J. McDowell, Seymour; "Cow Test Associations," Robert F. Tesson, St. Louis; "Some Ozark Development History," Senator F. M. McDavid, Springfield.

Swanger Makes Address.

Scores of people, unable to gain admittance, were turned away from the Landers theater Thursday night. The principal address was made by John E. Swanger, state bank commissioner. Mr. Swanger took for his subject "Missouri Banks and Banking," the speaker giving statistics on Missouri's wealth that surprised his auditors. Others on the program included D. Austin Latsch of Kansas City, who delivered an interesting talk on "The Trees of Missouri," Father P. Bandini, who discussed "The Italian Colonist," and E. F. Allen of Kansas City, who talked about "The Land and the People."

Women Help in Movement.

At the initial meeting to the Women's Missouri Development Association Thursday morning a permanent association was organized. Officers were elected as follows: Mrs. J. H. Curran, St. Louis, president; Mrs. Henry N. Ess, Kansas City, first vice-president; Mrs. J. S. McGee, Cape Girardeau, second vice-president; Mrs. Gertrude Clark, Springfield, third vice-president; Miss Louise Cornman, St. Louis, corresponding secretary; Mrs. Annie Dugan, Sedalia, recording secretary; Mrs. Leslie Thompson, St. Louis, treasurer, and Mrs. L. A. Kent, Sedalia, auditor.

How Can the Women Assist in the Work of Developing Missouri?

was the subject of many interesting discussions started shortly after the preliminary steps toward the perfecting of the organization were completed. A number of prominent women spoke at the meetings in the morning and afternoon. Among those who made talks were: Mrs. Mary E. Perry of St. Louis, head of the State Board of Charities; Mrs. Althea Summerfield, St. Louis, manager of the Self-Culture Club; Mrs. Jane Blubber, St. Louis; Mrs. M. S. Green, St. Louis; Miss Cera Cornman of Columbia, associate editor of the Rural World; E. M. Sheppard, Springfield; Mrs. Regan, Ironton; Mrs. Wall, Springfield; Mrs. A. P. Hart, Springfield; Mrs. L. A. Kent, St. Joseph; Miss Cora Boehringer, Springfield, president.

MISSOURI NEWS

Would Separate Incurable Insane.

Mexico.—Judge Alexander Carter of this city, presiding judge of the Audrain county court, after a recent visit as the head of the court to the eleemosynary institutions at Fulton, Mo., has several new ideas as to the management of the state's institutions for the insane. Judge Carter is an earnest advocate of the idea which suggests that one of the four asylums in Missouri be used exclusively for incurable cases. This, he thinks, would allow more attention to be given to and better care taken of the patients who have a chance to recover from insanity, without additional expense to the state.

More Tobacco Being Raised.

Mexico.—Callaway is fast regaining her former reputation as a tobacco-raising country. The rough country north of the Missouri river bottom lands is especially adapted to the raising of big-leaf tobacco. A shipment of fifty-six wagon loads of burley tobacco was marketed at Steedman last week. The entire lot was grown near Steedman, in Callaway county, and was purchased by J. S. Henry of Booneville, Mo., for \$4,275.29.

Course in Agricultural Journalism.

Columbia.—The school of journalism of the University of Missouri will offer at the second semester, which begins February 9, a course in agricultural journalism. The course will be a study of agricultural journals, the kind of news to be printed and the presentation. Dean Walter Williams of the school of journalism and Dean P. B. Mumford of the college of agriculture are offering credit in both schools for the work done in agricultural journalism.

First Tobacco Brings \$255 an Acre.

Liberty.—T. A. Hulen, a farmer, who lives thirteen miles north of here, sold his tobacco crop from five acres for \$255 an acre, and R. C. Mombas sold his crop at the same price. This is the first year at raising tobacco in Clay county, and because of the results a great number of farmers are planning large acreages next year.

Farmers Combat Meat Strike.

Nevada.—Incensed at the strike against meat being carried on by the city consumers, the farmers of Vernon county have decided to carry on a strike for themselves. More than 300 have signed a boycott in which they agree not to sell any cattle, hogs, sheep or poultry for sixty days, beginning February 1.

State Coal Bill Reduced.

Jefferson City.—The state's coal bill for the heating of the penitentiary and the lighting of the capitol, mansion and other state buildings for the year 1909 was \$27,085.50 less than that of 1907, and \$24,666.11 less than 1908. The saving is probably due to the fact that new boilers were installed last year.

Plans Year's Farm Work.

Hannibal.—The industrial committee of the Lincoln institute made arrangements for the year's work on the industrial farm. The committee is composed of J. F. Smith of Fulton, S. Emery of Ely, Judge Reuben F. Roy of New London and Capt. W. F. Chamberlain of Hannibal.

Centralla Fair Association Elects.

Centralla.—The Centralla fair association has chosen the following officers for the new year: J. R. Brown, president; J. W. Bryson and W. L. Keene, vice-presidents; C. H. Early, treasurer; J. K. Poole, secretary. The date of the annual fair was set for August 30 to September 2, inclusive.

Ptomaines Poison Five in Family.

New Florence.—Five members of the family of William Ensley, a farmer here, were stricken by ptomaines. Several were serious when medical aid arrived, and one member of the family is still critical. Milk left standing in a tin pan caused the poisoning.

Becomes Editor at Rolla.

Montgomery City.—Joseph N. Lavender, formerly editor of the Jonesburg Journal, who has been with the Montgomery Standard for some time, has gone to Rolla, Mo., where he has been elected editor and manager of the Times.

Pair Celebrate Fiftieth Anniversary.

Rich Hill.—Mr. and Mrs. Thomas McComb of this city celebrated their golden wedding anniversary with a family reunion. They were married in Peoria, Ill., January 25, 1860, and have resided here for thirty years.

May Be Postoffice Robber.

Alexandria, La.—Roy E. Delcore, aged 23 years, supposed to be wanted for robbing the postoffice at Sullivan, Mo., was captured by police officers here. He answers the description sent out from Missouri.

Missouri Cadet Dismissed.

Washington, D. C.—President Taft approved the recommendations of the superintendent of the naval academy at Annapolis for the dismissal of Midshipman James M. Whitehead of New Jersey, Scott Lynn of Utah and Grover C. Clevenger of Missouri.

Ripley Ships \$10,000 Worth of Mules.

Douglas.—Ten thousand dollars' worth of Missouri mules have been shipped from Ripley county to Illinois by one firm within the last few weeks.

New Professor for M. S. U.

Rolla.—Carter Alexander, now fellow in department of education at Columbia university, New York City, was appointed professor of education at the Missouri state university at Columbia, Mo.

Is Held on Forgery Charge.

Rolla.—Ed. Harris, living in the south part of Phelps county, was arrested and brought to Rolla on the charge of forging a check on Mrs. Mary King. At a preliminary hearing he admitted his guilt.

UNCOOKED MEAT VERY DANGEROUS

FEARFUL SUFFERING CAUSED BY EGGS OF PARASITE WHICH IT MAY CONTAIN—STATEMENT BY A PRIEST.

Omaha, Neb., Feb. 2.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape worms by his preparations.

During the early part of Cooper's stay in Omaha individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

"Few, indeed, realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach troubles of our age are caused by these parasites."

"Individuals may have them for years and not be aware of the reason for their continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of Cooper's 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave this city."

This gruesome prophecy has been amply verified, for not only hundreds but thousands of Omaha people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolds, one of the best known and best beloved priests in this section of the country verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down."

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would swoon before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs."

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about six feet in length left my system."

"I am very thankful for this great relief, and now I know what has been the cause of all my suffering."

The story of Father Arnolds is a fair sample of the experience of an astonishing number of Omaha people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

CAME AFTER HER.

Johnny—What are descendants, granddaddy?

Granddaddy—They are people who come after us.

Johnny—Then the baker and the milkmen are Mary's descendants.

Jim's Cost a Dollar More.

Richard Le Gallienne, the noted poet, was entertaining a group of magazine editors at luncheon in New York.

To a compliment upon his fame Mr. Le Gallienne said, lightly:

"But what is poetical fame in this age of prose? Only yesterday a schoolboy came and asked me for my autograph. I assented willingly. And to-day at breakfast time, the boy again presented himself."

"Will you give me your autograph, sir?" he said.

"But," said I, "I gave you my autograph yesterday."

"I swapped that and a dollar," he answered, "for the autograph of Jim Jeffries."

ONLY ONE "BROMO QUININE."

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GALEN. Used the World over to Cure a Cold in One Day. 25c.

We are never too old to acquire the latest wrinkle.

UNCOOKED MEAT VERY DANGEROUS

FEARFUL SUFFERING CAUSED BY EGGS OF PARASITE WHICH IT MAY CONTAIN—STATEMENT BY A PRIEST.

Omaha, Neb., Feb. 2.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape worms by his preparations.

During the early part of Cooper's stay in Omaha individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

The story of Father Arnolds is a fair sample of the experience of an astonishing number of Omaha people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

EIGHTEEN YEARS AGO HE HAD LESS THAN 3 DOLLARS

HE IS NOW ONE OF THE RICHEST FARMERS IN SASKATCHEWAN, CENTRAL CANADA.

Arriving in Canada in 1891, just eighteen years ago, E. A. Gullomlin could speak but his native language. He is a Frenchman. He had but a little over two dollars in his pocket, thus being short over seven dollars of the ten dollars required to secure entry for a homestead of one hundred and sixty acres. He eventually borrowed the money and near Forget, Saskatchewan, he started life in Canada on the homestead in which to-day he is the fortunate possessor of fifty quarter sections of land, or 8,000 acres.

Now Mr. Gullomlin did not acquire all these acres as a result altogether of his farming operations, which were extensive. He looked with satisfaction upon what he was doing on his limited area, he was saving, careful, and had foresight. Surrounding land could be had for about \$3.00 per acre, and he continued buying as his savings would permit, until now he has fifty quarter sections, some of which he can sell at \$25.00 per acre.

Threshed Fifty Thousand Bushels.

This year he was engaged in threshing on his place for 54 1/2 days. He threshed out 50,000 bushels of wheat, of which he sold 34,000 bushels, one train load, at a price varying from \$4 to \$7 cents per bushel. He has on hand still 16,000 bushels. In addition to wheat he raised 30,000 bushels of oats, 7,000 bushels of barley and 500 bushels of flax. He owns 104 horses and a number of cattle, but since the construction of the railway he has been engaged chiefly in raising wheat. This year he bought his first threshing machine, paying for it the sum of \$2,100. He estimates that the machine earned for him this fall \$3,000, thus paying for itself in one season and leaving \$900 to the good. The weather was very propitious for farm threshing, not a single day being lost in the two months which were spent in this work. The wheat averaged 23 bushels to the acre and graded No. 1 and No. 2 Northern. In the past nine years seven good crops have been harvested on this farm. For six successive years the returns were excellent, that is in the years 1901, 1902, 1903, 1904, 1905 and 1906. In the two following years there was a partial failure. As the years have passed the quality of the buildings on the farm have been steadily improved, and are now as good as can be found in the district. About \$10,000 has been invested in this way by Mr. Gullomlin. The farm consists of 6,880 acres, of which about 6,000 acres were under crop this season.

RALLIED TO THE DEFENSE

Parlor Maid Was Loyal, But It Is Doubtful If Explanation Helped Matters Very Much.

Walter Lonsdale, Dr. Cook's secretary, was adducing facts in praise of Dr. Cook.

"And these facts," he concluded, "prove my chief's honor; and the other side's defense is as weak as the well-known defense of the parlor maid."

Mr. Lonsdale glanced at his luggage packed for Copenhagen. Then he laughed and resumed:

"Mary," said a mistress to her parlor maid, "what time did my husband get home last night?"

"Not till four, mum," the maid answered.

"I thought so," said the mistress. "Here, it's evening, and the brute not up yet!"

"The maid bridled defensively. "Oh, but, mum," she said, "he has been up once, mum; but he just drank his bath and went back to bed again."

Children Who Are Sickly.

Mothers should be without a box of Mother Gray's Sweet Powders for Children. They break up colds in 24 hours, cure Feverishness, Constipation, Headache, Teething Disorders, and Stomach Troubles. Over 10,000 testimonials. At all Druggists. Ask for today. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

We would all write our names on the scroll of fame but for the innumerable tribe of elbow jockers.

Rheumatism Relieved in 6 Hours.

Dr. Deton's Relief for Rheumatism usually relieves severe cases in a few hours. Its action is remarkable. It removes the cause and the disease quickly disappears. First dose benefits. 25c. Druggists.

Before she is married to a man a woman always wants to think of him; afterward she wants to think for him.

WHY suffer with eye troubles, quick relief by using PETTIT'S EYE SALVE, 25c. All druggists or Howard Bros., Buffalo, N. Y.

Health may be wealth, but that isn't what makes the doctors rich.

DOCTOR YOURSELF

When you feel a cold coming on by taking a few doses of FERRIS' BLOOD PURIFIER, it is better than Quinine and safer. The large 50c bottles are the cheapest.

Time cannot remove kindly acts from a grateful heart.

Lewis' Single Binder, the famous straight 5c cigar—annual sale 9,000,000.

It might improve the pound cake to hit it with an ax.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One tin package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Quincy, Illinois.

To act with common sense, according to the moment is the best wisdom I know.—Horace Walpole.

FILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, humors, swellings or Pimples in 6 to 14 days money refunded. 25c.

He loves his country best who strives to make it best.—Ingersoll.

EGGS

How to make 100 hens lay 80 eggs in 14 days in winter, by my new method. I furnish it all complete for part of the eggs produced. Write for free booklet. 25c. MRS. W. ALLEY, New Madrid, Mo.

Pleasant, Refreshing, Beneficial.

Syrup of Figs and Elixir of Senna appeals to the cultured and the well-informed and the healthy because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In its production a pleasant and refreshing syrup of the figs of California is united with the laxative and carminative properties of certain plants known to act most beneficially, on the human system, when its gentle cleansing is desired. To get its beneficial effects, always buy the genuine, for sale by all reputable druggists; one size only, price fifty cents a bottle. The name of the company—California Fig Syrup Co.—is always plainly printed upon the front of every package of the genuine.

California Fig Syrup Co.

LOUISVILLE, KY. SAN FRANCISCO, CAL. NEW YORK, N. Y.

Rather Tall.

"That," said Senator Tillman of an opponent's argument, "is an amusing exaggeration."

He smiled.

"In fact," he continued, "it is as bad an exaggeration as the story about Ben Johnson's height. They said of Ben, you know, the candidate for sheriff, that when he made a stump speech, instead of getting a stump ready for him to mount, they would, because he was so tall, dig a hole for him to stand in."

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher*. In Use For Over 30 Years.

The Kind You Have Always Bought.

Some cemetery janitors, unless closely watched, raise vegetables in the rich graveyard mold.

ALLEN'S LUNG BALSAM

Will cure not only a cold, but any of those stubborn coughs that usually hang on for months. Give it a trial and prove its worth. 50c. and \$1.00.

The fellow who says he could never love a woman with money may discover that he can't successfully love a woman if he hasn't any.

Many who used to smoke 10c cigars are now smoking LITTLE'S Single Binder straight 5c.

A man can always flatter his wife by being jealous.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

A friend is merely a person who can tell our troubles to.

"The Blood is The Life"

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood.

Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery.

It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

The Wretchedness of Constipation

Can quickly be overcome by CARTER'S LITTLE LIVER PILLS.

Purely vegetable—act surely and gently on the liver. Cure Biliousness, Headache, Dizziness, and Indigestion. They do their duty.

Small Pill, Small Dose, Small Price. GENUINE must bear signature: *Wm. Wood*

ABSORBINE

Will relieve inflamed, swollen joints, bruises, sore muscles, corns, boils, frostbite, or any unhealthy sore quickly. Pleasant to use, does not blister under bandage or remove the hair, and you can wear the shoe, 25c per bottle. Horse Book 75c free.

ALLEN'S LUNG BALSAM

Will cure not only a cold, but any of those stubborn coughs that usually hang on for months. Give it a trial and prove its worth. 50c. and \$1.00.

PARKER'S HAIR BALSAM

Clears and beautifies the hair. Promotes a luxuriant growth. Cures Itch, Dandruff, Greasy Hair, and the Youthful Chlorosis. Cures aches and pains. 25c. and 50c. bottles.
